Sympathy of Fellow-Sufferers Acts Like Tonic for Invalid Tuesday. Woman.

Some years ago there appeared in the newspapers an open letter in which a suffering and helpless woman asked aid In obtaining a law to permit invalids pronounced incurable after a medical lessly. Naturally, the letter attracted flowing water by squads. attention and reawakened the old questhe letter now rejoices at the non-ful-

She tells of having received thou-sands of letters from all over the world containing messages of sympathy and robation for her daring attempt to obtain a modification of present-day laws protective of life. Some of these alids, she says, have since written of their cure and of their gladness t conservatism and old-fashloned legislation had intervened between selves and their impatience. of these correspondents, who was sure that hope was dead for her, and who eagerly desired the "finis" of the chapter, has written of her complete re-covery and how much more life now means to her since she has "passed the shadow of the valley of through the desolation."

This correspondence has proved, as might well be expected, a stimulant and a tonic to the invalid. She feels not only that her contact with others has given them a rerewed interest in life, but also that even her mistaken sug-gestion of a revolutionary change in law has not been without its good effect, since it has drawn together in bonds of deep human sympathy in-valids who felt their helplessness yet helped by the knowledge of their

"It was the touch of nature that makes the whole world kin-and kind," says the Journal of the American Medical Association. "Probably nothing is more stimulating and genuinely tonic to sufferers, especially those with chronic ailments, than the feeling that in spite of their own helplessness they themselves can still be helpful to oth-ers. The Shut-In Society in this country has made life more bearable for many persons who are confined to their rooms of their houses. Nothing dis-turbs a certain class of patients so much as to be constantly in contact with those who are in good health and strength, and whom they can scarcely help but envy.

"To be brought into touch with those

for whom they themselves can feel is a precious source of consolation and up-lift. Pity is a luxury to be enjoyed, but no human being likes to be pitted or to feel that he is an object of pity. To be conscious of some advantage in one's situation over that of others is of itself an alleviation for many sicknesses."

a interferes seriously with the proper handling of artificial baits. Little river opposite Georgetown, en-tertained a select few who know the locality, and even the straight reaches

of the river gave some return to those who fished it properly. All this may sound like a big day, but not so many fish were caught after all. To the true bass fisherman, two or three fish are a considerable return for the time spent in sport. The artistry comes in being able to catch fish where they are supposed to be scarce. There are few other fish in the vicinity

of Washington now. A few small roof the pan-rock type, were caught. few, very few, perch were brought to boat, but not enough to enable even the most optimistic angler to say "the perch are here." Catfish—of course there are always catfish, even when the river is crowned with ice or sullied

The following places bear the reputa-tion of being good fishing grounds: (1) "The Parlor," a pool above Boiling Rock, straight out from Fletcher's. The water is deep and swift, and the pool bears its name because the fish are bears its name because the fish are known to congregate there. (2) Middle Rock above the Chain Bridge. It is well to arrange to a have a boat taken up on the flood tide, as it is impossible to make headway against an ebb tide. (3) "The Hens and Chickens," off the point of the powerhouse near Fletcher's; water 40 to 50 feet deep and very swift. Care must be exercised. (4) near the ladder, at the Chain Bridge, opposite the branch on the Virginia side. (5) Opposite the point of Analostan Island, along the bend of the river. Water about thirty feet deep. (6) Near the about thirty feet deen. (6) Near the Thurston steel niant, at function of Po-tomac and Eastern Branch. (7) The Ti-da! Basin. Boats and bait may be obtained at the Speedway boathouse, at the western end of the basin, (8) The Dyke between Alexandria and Mt. Ver-non. Boats may be obtained near car station. Is This the Kind of Bank You Want to Bank With?

The Munsey Trust Company has a capital of \$2,000,000. It started right, with its capital fully paid in before it opened its doors for business. Capital enough to make it as solid as the "Rock of Gibraltar."

-It pays 2% interest on checking accounts.

-It pays 3% interest

on ordinary savings accounts.

- It pays 4% interest on special savings accounts.

Interest compounded monthly (twelve times a year), on the 2% accounts and four times a year on the 3% accounts; twice a year on the c% accounts, and interest so figured that the depositor gets a "Square Deal." There are no rules, no penalties, no subterfuges with us that whittle gown the rate of interest; and your money draws interest every day it is in The Munsey Trust Company, nowever long or short the time, and every business day in the year in deposit day. The Munsey Trust Company is a serious, substantial ban conducted on sound business lines. Its methods are clean, clearcut and straightforward all men the same—treats the big man no better than the

little man, and treats all alike, with well considered courtesy.

If this is the kind of bank that appeals to you, we should be glad to have you open an account with us. Measured from every angle—the interest we pay, and the way we figure interest, and the strength and substantiality of The Munsey Trust Company— is there any other bank any-where where you can do as well?
